www.bull.be

Bull operates in over 50 countries and is established in Belgium since 72 years. Bull Belux employs over 300 employees in Belgium. Their customer's base is primarily a mix of public/government and European Institutions. Bull Belux designs, implements and runs internationally renowned solutions for public and private sector organizations alike, that transform information systems into positive drivers for excellence, differentiation and value-creation. As a trusted business partner, Bull helps its customers seize all the opportunities of the digital revolution, while managing its inherent risks. To strengthen their IT Service Management portfolio, Bull has signed a partnership agreement with OMNINET to distribute OMNITRACKER towards its customer base in Belgium and Luxembourg.

baramundi software AG

www.baramundi.de

In 2000 baramundi software AG was founded. The company develops and markets a server and PC management software solution for the central, automatic installation of operating systems and applications in Windows environments.

The baramundi Management Suite is suitable for companies of all sizes and industries. That was also the goal with the first design: to be flexible, to minimize dependencies – and to maintain open partnerships. We are happy that we have now had the opportunity to become acquainted with many like-minded companies and employees.
